AN ISO 9001:2015 COMPANY

VIJAY UDYOG : A Quick Peep

Kitchen-Display-Refrigeration

Company Profile

The company has been in commercial refrigeration market since 1989. Pre-empting the increased demands for Food service & Preparation equipment the company took the decision to add Commercial Kitchen Equipment segment (from 2002)

We are providing complete solutions for Professional Kitchen Equipment and Refrigerated Displays which includes from Project design and consultancy to Supply & Installation of equipment in kitchen.

A blend of highly qualified youth and vastly experienced technicians who are constantly designing new equipment to suit contemporary standards and designs. The product range is wide and varied to suit the various needs of today's fast paced customer. The kitchen equipment range is designed with versatility that will give many years of service. The unique functional design and planned styling of our equipment makes it glow in any installation.

We assure you of punctuality in delivery, quality of product and competitive prices.

Technology & Infrastructure:

Factory set up in 30000 Sq. ft area for manufacturing equipment , supported by 65+ professional staffs who ensures the quality process.

Fully equipped factory with all latest Plant & Machineries with CAD - CAM facility to ensure a quality finished product.

Achievements

- An I S O 9001: 2015 Certified Organization

A Leading and Innovative company in the Hospitality world with 25 + Years of experience with 5000 + Satisfied Clients across India.

'Honest Business With Elegance' : Is The Hallmark Of Vijay Udyog

Bone Saw So 1650 F2, 1850

BONE SAWS

- Made from AISI304 Stainless steel (for So2020)
- Machines of simple design, reliable and simple to use, made of anodized aluminium, shining, hygienic and rustproof.
- Complete with pressing arm, portion measuring device, 24volt switch relay and microswitch on blade coverage.
- Easy and precise regulation of the pulley, adjustable in height and in inclination up-down or left-right to assume the best contact of the blade.
- Easy cleaning thanks to two construction features.
 1. All electric parts are housed in the back side of the machine.
 2. By unscrewing two handles is possible to take off blade, pulley and pulley support, so that there is a flat surface to be cleaned.
